What's Happening at Bionic

We're excited to welcome **Iris** and **Samerial** to the Bionic team as our newest interns! Both are studying Exercise and Sports Science, and they are pursuing future careers in kinesiology and Prosthetics & Orthotics. Through their time at Bionic, they look forward to gaining hands-on experience, expanding their knowledge, and gaining valuable clinical exposure. We're excited to have them on the team and support them as they work toward their future careers! ♥

What's Happening at Bionic

This month we wrapped up our Google Review Contest, and we're excited to celebrate the incredible participation from our clinics! 🎉

The contest encouraged our teams to connect with patients and highlight the positive experiences happening at our clinics every day. Google reviews are a great way to showcase the care, service, and relationships our teams build with the patients we serve.

A huge thank-you to everyone who participated and helped make this contest a success. Your dedication to creating exceptional patient experiences continues to make a difference across Bionic.

Congratulations to our winners! 🏆

★★★★★

Our 4 year old has cerebral palsy and they are always so patient, yet quick and thorough with her appointments!

★★★★★

Bionic has been such an important part of my grandpa's healing journey. The girls at the front are always pleasant and informative. Kasha was very helpful when it came to handling payment and made it very easy for my grandpa to understand. He could not stop raving about how nice all the staff was!

★★★★★

The team of Bionic and Madhu is been really great with the care. All our appointments is been very smooth and I really recommend this place to you if you looking for an absolute great care and response.

Patient Testimonials

"Bionic has been such an important part of my grandpa's healing journey. The girls at the front are always pleasant and informative. Kasha was very helpful when it came to handling payment and made it very easy for my grandpa to understand. He could not stop raving about how nice all the staff was!"

"Our 4 year old has cerebral palsy and they are always so patient, yet quick and thorough with her appointments!"

"We have been so impressed with the care our son has received from Bionic Prosthetics and Orthotics From the very beginning, the entire process has been explained clearly, and we have always felt like he was in great hands with Miss. Madhu!!"

Patient Success Story

For 42 years, Lee has been navigating life with multiple limb deficiencies after an electrical injury changed his life in an instant. But Lee's story is about so much more than what happened to him. It is about resilience, family, adventure, and choosing to keep moving forward.

He and his wife love to travel and have even embraced the snowbird lifestyle, spending winters in Florida. And if you look closely at the hat he is wearing in this photo, you will see a pretty special reminder of what means the most to him: all of his grandchildren.

When asked what advice he would give to someone who is newly facing life as an amputee, Lee kept it simple:

"Don't get discouraged and trust your clinician."

Recipe of the Month

Pumpkin Cheesecake Brownies

Employee of the Month

Melissa Christensen

Thank You
FOR ALL THAT YOU DO!

Melissa consistently supports her team by assisting when additional help is needed and sharing her knowledge with other Office Administrators through training and guidance. She takes an active role in helping patients, works diligently to obtain required documentation from physician offices, and maintains positive working relationships with physicians and their staff. Her collaborative approach, dedication to patient service, and willingness to support both patients and colleagues contribute positively to daily operations.
