28 FOR 28 CHALLENGE

In the month of July, Bionic joined the 28x28 Mobility Challenge in support of So Every BODY Can Move, a landmark state-by-state policy and advocacy initiative creating equitable access to prosthetic and orthotic care for physical activity, currently deemed “not medically necessary” and not covered by insurance. Collectively, the Bionic team raised a total of \$15,892, surpassing our \$10,000 goal. This amount represents close to 10% of the overall amount that was raised for the event.

WHAT'S HAPPENING AT Bionic

From Clinic to Capitol: BionicPO Steps Up

Bionic is proud to have been represented at the **2025 NAAOP Congressional Fly-In**, where leaders in the prosthetics and orthotics community came together to advocate for positive change in our industry. Big shout-out to **Brad Watson**, Director of Practice Management, who was able to attend the event! It was great to see fellow professionals and advocates on **Capitol Hill** pushing for policies that expand access to quality prosthetic and orthotic care, protect patient choice, and ensure fair coverage for life changing devices.

Sharing Minds, Shaping Futures at The Game

Bionic had the pleasure of being represented at **The Game**, an event that took place in Italy and was promoted by **BionIT Labs**. The main goal of the event was to spark a creative and professional exchange between some of the leading experts in the prosthetics field and international professionals working with the most advanced upper-limb prosthetic technologies.

Highlights from Our Teams Across the Map

Our **Texas** team was once again present at the Spina Bifida Day in San Antonio. SB Day is aimed to educate and promote fellowship within the **Spina Bifida Community**. SB Day contains a resource fair with agencies and companies that serve this community and mini education seminars where qualified experts speak on less intense yet common issues associated with Spina Bifida. See you again next year!

Our **Kentucky** team was once again present at the **PossAbilities Expo**, an yearly event that celebrates people with disabilities. It is a chance for individuals and families with different abilities to experience a day of fun, excitement, and learning.

Our team has been working hard to get everything ready for our brand **new location**! Our **Indianapolis, IN** clinic will be up and running in no time. Stay tuned!

EMPLOYEE

OF THE MONTH

CHRISTINA MOIR

Christina is a very hard worker. She cares about the patients and the patients love her. We have received many compliments about her. She takes her time and explains the process to the patient. She is always willing to help whenever needed. She completes all her tasks in a timely matter. If her patient load is slow, she will ask if anyone needs help. She always has a positive attitude.

She is a valuable member of our Florida team!
