WHAT'S HAPPENING AT Bionic

Some of our practitioners recently came together at the Business Center for a collaborative meeting filled with great conversations and fresh ideas. The day gave everyone a chance to connect with colleagues from different clinics, share experiences, and learn from one another while discussing ways to continue providing the best care for our patients. It was a valuable opportunity to collaborate, explore new ideas, and strengthen the relationships that help our team work together across locations. Thank you to everyone who attended and made the meeting such a success. We appreciate your engagement and look forward to more opportunities to connect in the future.

Building Connections at the Bowling Green Expo

The Bowling Green expo was a great success. It provided an excellent opportunity for our team to strengthen existing relationships while making new connections with clinics and facilities throughout the event. Austin, Brad, and Dakota spent the day meeting attendees, handing out candy, pens, and rubber bands, and enjoying conversations with both adults and kids who stopped by the booth. In between connecting with visitors, the team also had the chance to enjoy the fashion shows hosted throughout the expo, making it a fun and successful experience for everyone involved.

Patient Testimonials

Susan L. **Ormond Beach, FL**

"Highly recommend this place. Eric is wonderful and really helped is out and Melissa is easy to deal with and very helpful"

Melissa N. **Lafayette, IN**

"I am so happy we were referred to Madhu! If I could give more than 5 stars, I absolutely would."

Elizabeth B. **Rockledge, FL**

"Njhari Jackson thank you for making it easy and simple and in and out. You are the best"

Patient Success STORIES

Ten months ago, Pamela received her prosthesis, and since then she has made incredible progress on her journey toward independence. Today, she is back to driving her car, enjoying trips to the beach, shopping, and confidently navigating stairs, ramps, and everyday activities. She has successfully achieved her goal of getting back behind the wheel and returning to work.

Beyond her own accomplishments, Pamela continues to inspire others by sharing her experience with fellow amputee patients. She encourages them to stay motivated, keep pushing forward, and believe in their own journey.

Mark is 6'7" tall and has made incredible progress since receiving his prosthesis. From day one, he was able to walk confidently with his prosthesis, and within just one month, he was walking independently without the need for any assistive devices.

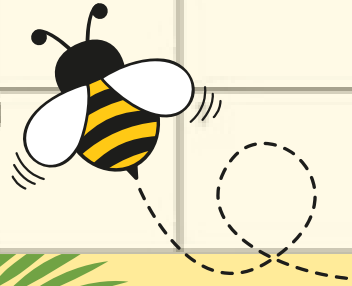

Today, Mark is back to driving his own car and continues to work at the Union, where he operates heavy-duty machinery. His determination and commitment to maintaining an independent lifestyle are a true inspiration, and he continues to move forward with confidence and strength.

WELCOME TO THE TEAM!

Vinay joined our Central Region team about a year and a half ago, and from day one he has demonstrated an unwavering commitment to patient care and to supporting his teammates.

Whether it's staying late in the lab to ensure projects are completed on time, visiting physician offices to help expedite clinical documentation so patients receive care sooner, or stepping up whenever and wherever he's needed, Vinay consistently goes above and beyond.

In addition to his dedication to patient care, Vinay has worked tirelessly to grow his own patient caseload by building and expanding his referral network. His work ethic, initiative, and willingness to embrace every opportunity to learn have made a tremendous impact on our team and the patients we serve.

It is truly an honor to have Vinay on our team. He continues to raise the bar and set the standard for what a resident should strive to achieve throughout their residency. His commitment to excellence, growth, and service is something we all appreciate and admire.

Congratulations, Vinay! Keep up the outstanding work—You're going to go far kid!
